PROFILE SUMMARY

Aspiring Frontend Developer and Computer Science graduate with hands-on experience building responsive web applications using React.js and JavaScript. Skilled in component-based architecture, state management, REST API integration, and dark/light theming. Seeking an entry-level frontend role where I can contribute to real-world products and grow in modern web development practices.

TECHNICAL SKILLS

Languages & Markup: HTML5, CSS3, JavaScript, Python

Frameworks & Libraries: React.js, Tailwind CSS, Framer Motion, Bootstrap, React Router, Express.js

Tools & Platforms: Git, GitHub, VS Code, Node.js, npm, Chrome DevTools, PyCharm

Concepts: Responsive Design, State Management, REST API Integration, Dark/Light Theming, Cross-browser Compatibility

PROJECTS

Full Stack News Application

Sept 2025

- Developed a full-stack news application using React.js, Node.js, Express.js, and JWT authentication with features like user login, news browsing, bookmarking, and protected routes.
- Built a responsive frontend with React Router and Context API while designing RESTful backend APIs and structured data management for seamless client-server communication.

TextUtils – React Text Utility App

Aug 2025

- Built a React.js text utility app with 6+ features — case conversion, space removal, word/character count, and reading time estimate — using useState hooks and React Router.
- Designed a responsive UI with Bootstrap and dark/light mode toggle, deployed with a clean component-based architecture for maintainability.

Stone, Paper, Scissors – Web Game

Dec 2024

- Developed an interactive browser game using vanilla HTML, CSS, and JavaScript with real-time play against a computer AI using Math.random().
- Built a responsive UI optimized for desktop and mobile devices with live score tracking, visual win/loss feedback, and reset functionality for an engaging user experience.

Currency Converter – Web App

Jul 2025

- Built a real-time currency converter fetching live exchange rates for 150+ currencies via an external REST API using JavaScript fetch().
 - Designed a clean, responsive interface with HTML and CSS, featuring dynamic dropdowns and instant conversion on input change.
-

INTERNSHIP

DevOps Intern

Aug 2023

- Completed a DevOps internship focused on CI/CD pipeline automation and containerization using Docker — including deploying web application builds to staging environments.
- Gained hands-on exposure to AWS cloud services (EC2, S3) and system monitoring tools to support development workflows.

IBM Internship – Emerging Technologies in Data Analytics

Jun – Jul 2023

- Explored data analytics tools and big data techniques; gained exposure to data pipelines and analytics workflows used in enterprise environments.

EDUCATION

B.Tech – Computer Science & Engineering | S'O'A University, Bhubaneswar | CGPA: 7.8 | 2020 – 2024

12th CBSE (PCM) | Ghanashyam Hemalata Vidya Mandir, Jharsuguda | 2020

10th CBSE | Saint Thomas English School, Jharsuguda | 2018

CERTIFICATIONS & LEARNING

- Web Development – SmartKnower
- Python & Data Science – DevTown
- Facebook Clone using HTML & CSS – Google Developer Group
- DevOps Internals

LANGUAGES

English | Hindi | Odia | Bengali
